

CONNECT, CARE, PREPARE

CONNECT TO A LOCAL BLOCK ACTION TEAM!

Los Altos Block Action Team (BAT)...a great way to make your neighborhood even better!
Get to know your neighbors even better through a BAT:

Connect to stay informed and involved, socialize, and have fun!

Caring neighbors create a friendlier, safer neighborhood

Prepare your household for emergencies, disasters and crime prevention

WHAT IS A BLOCK ACTION TEAM?

WHY JOIN A BAT?

When your household participates in an existing BAT in your neighborhood, you and your family work with your neighbors on disaster preparedness and crime prevention activities, look out for those who may need assistance, and have fun through social events. It's proven that strong connections between neighbors improve the overall well-being of a community and help make Los Altos a wonderful place to live.

GET INVOLVED!

Not sure if your neighborhood has a BAT? Send an email to info@losaltosbat.org and include your name and street address to find out if your neighborhood is covered by an existing BAT. If not, it's easy to start a BAT in your neighborhood! Simply sign-up to attend a BAT Leader training session and learn how to develop a plan for your neighborhood; co-leaders are encouraged! To sign-up visit: www.losaltosbat.org

A Block Action Team (BAT) is a group of neighbors, led by one or more residents, who work together to have a strong, resilient and fun neighborhood.

A BAT IS:

1. A social network that introduces neighbors to each other to stay informed, build friendships and have fun.
2. A support network for neighbors so they can prevent crime and respond effectively during emergencies and disasters.

“ Thanks to LACF's Block Action Team program, our neighborhood has become better prepared for emergencies and also a closer and friendlier community. - Lan Nguyen & Ellen Schwartz

LOS ALTOS
COMMUNITY
FOUNDATION

The Block Action Team (BAT) Program is a managed program of the Los Altos Community Foundation in partnership with the City of Los Altos
